Subject: Confirmation of Research Volunteering Completion

Dear Dr. Sandra González,

I am writing to formally confirm that **Marcelo Guzmán de la Garza** (UANL ID 1877393; Neptun code ICRGU6) has successfully completed the required **330 hours (11 ECTS)** of research volunteering at the University of Debrecen during the Spring semester of 2025.

During this period, Marcelo assisted a research project addressing the phenotypic changes occurring in response to urbanization in a common passerine, the European blackbird (*Turdus merula*), in Debrecen. His activities were under the supervision of PhD Candidate Ivan A. González Andazola and myself, within the Faculty of Science and Technology, Institute of Biology and Ecology, Department of Evolutionary Zoology and Human Biology. His contributions included data collection and fieldwork; specifically: netting, banding, nest searching, and capturing biometric data.

Marcelo has fulfilled all obligations required for his volunteering commitment with us.

Sincerely,

Dr. Zoltán Németh

Assistant Professor & Researcher
